Appn. S/N 09/822-063
Amendment After Allowance in Response to
6/28/2005 Notice of Drawing Inconsistency

Atty. Dkt. MI40-325

REMARKS

This is responsive to the Notice of Drawing Inconsistency with Specification mailed by the Office on June 28, 2005.

In related patents, the Office had previously requested the filing of a similar Amendment in order to facilitate publication.

The drawings for this patent are the same as those in U.S. Pat. No. 6,130,602, which has been incorporated by reference (see Preliminary Amendment filed March 30, 2001). Therefore, this application has been amended in the same manner in which related application, Serial No. 09/161,512, now U.S. Pat. No. 6,466,634, was amended by Examiner's Amendment. This Amendment also obviates the issues listed in the Notice of Drawing Inconsistency with Specification.

Prompt publication of the patent is requested.

Respectfully submitted,

Dated: July 15, 2005
